	I. Degree Program & Cor	nmon Graduate Student Learning Outcome	;S

(SLOS)

A.List degree program SLOs. For each, SLO, indicate the highest cognitive level and Common Graduate Program SLO it represents. To accommodate more than four SLOs, add rows as needed. The Common Graduate SLOs for master's programs (adopted 2/2017) are listed below. Students shall demonstrate at the graduate level: 1. Mastery of discipline content 2. Proficiency in analyzing, evaluating and synthesizing information 3. Effective oral and written communication 4. Knowledge of discipline's ethics and standards

programSLOTable programSLODesc Students will learn XYZ Bloom's Taxonomy Common Graduate Cognitive Level **Program SLOs** Knowledge **1** Analysis _ 2 Comprehension **✓** 3 Synthesis **4** Application ■ Not Applicable for SLO Evaluation 1 + × programSLODesc Students can analyze problems Bloom's Taxonomy Common Graduate Cognitive Level **Program SLOs** ○ Knowledge 1 Analysis ✓ 2 Comprehension 3 Synthesis **4** Application ■ Not Applicable for SLO Evaluation SLOs reflect professional standards as dictated by an accreditation or other external body.

○ No

Yes

C.

Describe how stakeholders (both internal and external) are involved in the creation and/or review of SLOs as well as how SLOs are communicated to stakeholders. A few examples of internal stakeholders (and communication methods) could include full-time/adjunct faculty and staff (departmental meetings or retreats), and/or current students (syllabi, advising documents, student organizations). Some examples of external stakeholders (and communication methods) could include prospective students (recruitment materials), alumni (advisory boards, focus groups, surveys, newsletters), employers (internship evaluation forms, focus groups, surveys, advisory boards,

When it comes to the creation and review of Student Learning Outcomes (SLOs), stakeholders play a crucial role in ensuring that these outcomes accurately reflect the needs and expectations of the educational

II. Assessment Methods A. Complete a table for each SLO. If an SLO is assessed by more than one measure, complete tables for each measure. Duplicate the table as needed to accommodate the number of measures. Attach copies of rubrics. assessmentMeasure Title of the Measure Tests and Exams Describe How the Measure Aligns to the SLO This is the measure of all tests and exams Domain Check all that apply Examination Product Performance Type Direct Measure Indirect Measure Point In Program Assessment is Administered measurePointInProgram In final term of program In final year of program

dataResultsDescription

C. Describe how results are communicated within the program. Address each SLO. If possible, please include the date(s) that Academic Program Assessment results were/will be discussed.

IV. Decisions and Actions

Briefly describe specific decisions and actions related to each SLO (e.g., SLO/goal-related changes, method/process-related changes, stakeholder engagement changes, etc.). Include who (e.g., program faculty, a faculty committee, etc.) made the decision, when the decision was made (e.g., faculty retreat, faculty meeting, etc.), what data informed the decision, and a timeline for actions taken or to be taken. Furthermore, please briefly describe how your program has demonstrated continuous improvement by considering the following questions: What are the effects of your previously stated changes from your last report? What did you do in response to your previous assessment report feedback? How have you made progress since the last assessment report?
